Minibars

Minibars have been part of the hotel room for many years. They are a standard addition to your hotel room, ensuring that your guests always have a chilled snack on hand at every moment of their stay.

Our range includes the latest types of thermoelectric minibars, which have very low power consumption, compared to the absorption minibars commonly used in the past. You can save up to 70% on running costs.

Minibars can be built into cupboards so that they are not visible and do not take up space within the room, or they can be placed in a room in such a way that they enhance the appearance of the room. Especially the ALDA BC30 RETRO minibar is very successful in design and will become a dominant feature of any room.

HZBC30TEM Minibar ALDA BC30
 Colour black
 Dimensions (h × w × d) 485 × 400 × 425 mm

Safes

If you're looking for the perfect solution to protect your guests' valuables, then you've just found it. ALDA safes offer hotel guests the right amount of protection, security and safety.

The safes feature, among other things, electronic dial codes with LED display and can be anchored/secured in the bottom (4 holes) or back (2 holes) of the safe. The safes are powered by 4 AA batteries (very low consumption).

In addition to the ALDA DIGI Basic safe, all safes can accommodate a laptop up to 15.6" (depending on the type of safe).

VCD2035 **Digital Safe ALDA DIGI Basic**

Electric kettles, sets and coffee makers

A wide selection of kettles and sets, from which even the most demanding of you will surely choose. The assortment includes a wide range of different colours, volumes, designs, materials and designs. The kettle sets are very elegant, modern, practical and include removable drip trays for easy cleaning.

The range is also complemented by the very elegant, practical and high quality ALDA capsule coffee machines, which are designed for everyone, who want to enjoy delicious coffee but do not want to deal with the often demanding operation and maintenance of manual lever coffee machines. The machine uses Nespresso capsules which, with the help of a 19 bar pump, can create a taste-perfect espresso and lungo. Coffee preparation is very simple and quick, making it perfect for hotel rooms, apartments or even your home. If you want to make your guests' stay in your establishments more enjoyable, then the ALDA coffee machine is the ideal tool.

Luggage racks

Suitcases are classic and great helpers in any hotel room. They save space, they help, they make things easier, they protect.

In our offer you can find both natural wood suitcases, which are very original, have a beautiful natural wood look and include 4 straps in black, which ensure sufficient load capacity of the suitcase, as well as suitcases in metal, which are characterised by their modern look and solid construction.

The suitcases with a backrest ensure that the luggage is protected against falling.

HOTEL EQUIPMENT

Extra beds, cot

Great and economical helpers for expanding the bed capacity in your accommodation are hotel extra beds. In our offer you can find foldable extra beds with different types and heights of mattresses (PUR foam, spring). ALDA extra beds BEST and CLASSIC also include a wooden headboard. The load capacity of the extra beds is 100 kg. The beds are of high quality and are characterized by long service life. For easy handling and repositioning, the extra beds are equipped with transport wheels.

And we do not forget about our little ones. The LUCA folding cot, made of solid beech wood, ensures safe and comfortable sleeping accommodation for all children (up to 25 kg).

Ironing centers

Wrinkled clothes are a common problem for all travellers. Ironing sets can be a great help when you want to stay stylish and travel across the world.

Ironing sets are easy to place or store either at the front desk where your guests can borrow them, or they can find their place right in the room. They're very portable and take up almost no space. The ironing sets are cleverly designed and manufactured so that they can be hung in a cupboard or on the wall.

The sets are available with a steam or dry iron. You can also choose from two ironing board cover colours, in light grey or dark grey.

CB3744 Steam iron CORBY, black
 Iron power 1.200 W

Hangers

Practical wardrobe hangers help every guest keep their clothes wrinkle-free yet neatly stored. Use the space in the wardrobe to the maximum.

We offer 8 wooden clothes hangers that will take care of your guests' clothes in the easiest and most practical way. We offer 4 types of hangers, in two colours, namely light or dark shade of natural wood. You can hang the hangers on a hook, or secure them against theft with a ring strung on a wardrobe rod. Some hangers also include clips for hanging trousers. Of course, all hangers have notches for hanging skirts.

All our hangers are of high quality and are adapted to the use and load in very heavy-duty operations.

Room bins

A traditional and essential piece of equipment in every hotel room is a waste basket. In the wide range of waste bins you will find bins of different shapes (round, oval, square), volumes (from 6 l to 18 l), different finishes and colours.

Our range also includes bins for sorted waste, bins with lids or flame retardant bins to minimise the risk of waste burning.

All bins are of high quality design and made from quality materials.

Trolleys

Quality and fast service will certainly contribute to the satisfaction of hotel guests. Guests do not want to be disturbed often and want their room to be available and tidy at all times. To facilitate and speed up room service, cleaning and preparation, it is advisable to use trolleys for maids, which can be used to transport everything at once and avoid delays and unnecessary time loss.

You can place everything you need on the trolley and simply and quickly ensure that the rooms are ready for further use in a very short time.

In addition to the maid trolleys, we also offer mini bar trolleys and laundry trolleys.

Pillows and blankets

It is the goal and aspiration of every accommodation operator to make the hotel guest feel at home or even better. A hotel guest wants to be pampered and to feel cared for. The pillows and blankets, which together with the along with the bed mattress, are very important in ensuring a good night's sleep.

Our pillows and duvets are made of high quality materials and are very comfortable and pleasant to use. The pillows and blankets are made in the Czech Republic, are suitable for allergy sufferers and are available in two versions - Classic and Super.

The pillows and blankets are manufactured according to Oeko-Tex® Standard 100 certification (class II - products in direct contact with the skin). This means that the materials from which the pillows and blankets are made have been tested for the presence of harmful substances and it is therefore guaranteed by independent institutes that no chemicals have been used in their production. This makes the pillows and blankets completely safe for human health. Products with Oeko-Tex Standard 100 certification are recommended for people with increased allergic reactions or intolerance to heavy metals.

BRPO **Pillow SUPER**
 Material 100% PES, brushed microfibre
 Type of filling hollow fibre
 Laundry 60°C (max. 95°C) recommended

If you are interested, we can make pillows and blankets to your specifications.

Hotel mattresses, toppers and protec-

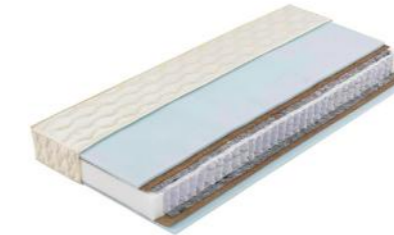

Every hotel guest wants to feel that they are receiving the utmost care. Getting a good night's sleep during their stay will certainly help to achieve this feeling. In our offer you will find 3 types of mattresses of different sizes, heights and designs (spring and foam), which will certainly help to achieve a good night's sleep. In case you do not choose from our standard range of sizes, we can custom make a mattress to suit your requirements.

You can use our mattress toppers to increase the comfort of your beds while protecting your mattresses against soiling. They can also serve on their own as a massage, relaxation or exercise mat.

Mattress protectors can be used to protect beds against mattress contamination and to extend the life of the mattress. Mattress protectors are manufactured according to Oeko-Tex® Standard 100 certification.

Bed sets and sheets

High quality material and workmanship – this is what distinguishes our bedding sets and sheets, which we produce in the Czech Republic. There is a very wide range of bedding sets, pillowcases and duvet covers, as well as sheets. There is a very extensive range of different sizes in the product portfolio, and if you still cannot choose from them, we can make bedding sets and sheets to your specifications if you wish. SOLITUD material is made of 100% cotton and is offered as standard with 2mm, 4mm, 8mm or 20mm strips.

The high quality of our products ensures a long service life, even in the very demanding conditions found in accommodation facilities.

Boxspring hotel beds

Boxspring hotel beds are characterised by the high quality of the materials used and their design. They are designed and manufactured to provide maximum sleep quality and ensure a long life.

The beds are available in three types: fixed top, slatted core and spring core. The construction of the bed frame is made of high quality solid wood. The bed can be upholstered in two types of fabric (Florida or Cashmere) or in the customer's own fabric. The total height of the bed is 37 cm (without mattress), the bed is equipped with 2 pcs of solid beech wood legs and 2 pcs of castors (or according to customer's request).

The undeniable advantage of the bed upholstery is that the cover is equipped with a zipper for easy replacement. The cover is made of anti-slip fabric at the mattress location, which prevents the mattress from moving. The mattress is not included with the bed.

NVBXP Boxspring with spring core
 Core/bedroom area spring core on a solid plate

Hotel hairdryers

Hotel hairdryers have become a standard part of every bathroom. They are especially appreciated by ladies, for whom a hairdryer is an integral part of their daily needs.

There are hairdryers in different colours (white, black, silver), different power settings (200 - 1,800 W), different designs (stand-alone or wall-mounted) and different functionalities (adjustable power, shaving stand, connection to a fixed power supply, etc.).

All hairdryers are made of high quality materials and in a quality design to withstand the harsh conditions of hotel bathrooms.

Outdoor and indoor waste bins

Trash bins with or without ashtrays are used to keep the indoor and outdoor environment of accommodation facilities, restaurants, bars, cafes, etc. clean and orderly, depending on the location and method of destination.

The bins are made of high quality and durable materials. The bins are easy to move and do not need to be anchored to the floor (surface). Emptying waste bins and ashtrays is very simple, practical and quick.

Luggage trolleys

Do you need to move your guests' luggage quickly, professionally, safely and effortlessly? Our luggage trolleys are designed to do just that. For larger numbers of luggage, we use so-called cage trolleys, which can be loaded with a larger volume of luggage and moved at once, for example from the car park to the hotel reception or to the guests' rooms.

For handling smaller numbers of luggage, the so-called hand luggage trolleys are used, which can easily and quickly move your guests' luggage to the desired destination very quickly.

The trolleys are offered in two colours (gold and stainless steel), with a choice of two carpet colours (red and black).

Standing barriers

Elegant stand-up barriers with tape or ropes in various colours are suitable for all areas where it is necessary to prevent access to persons or to separate individual rooms. Such areas include hotels and restaurants, government institutions, museums, theatres, cinemas, airports, offices, office buildings, corporate premises, etc.

The individual posts can be connected to each other by tapes or ropes to create a barrier of any length according to the user's needs. The length of the tape is 200 cm, the length of the ropes is 150 cm.

Shoe cleaners

Clean and polished shoes are essential for any manager going into a business meeting. Give your guests the comfort of clean and shiny shoes and offer them one option to clean their shoes easily, quickly, efficiently and safely.

Shoe cleaners are economical, take up little space, yet are very successful in design so they don't intrude on the space, in which they are placed and used. The shoe cleaners are equipped with Swedish motors that are characterized by long life with minimal failure rate.

Electric dryers

Electric hand dryers are a greener option for drying washed hands than standard paper towels. Their main advantage is their non-contact use, which significantly reduces the spread of dirt and bacteria. Hand dryers will not only take the weight off your paper towel bins, but also your wallet, thanks to lower running costs in the long run.

Electric hand dryers find their wide application not only in restaurants and hotels, but also in all areas (e.g. toilets) where there is a lot of movement of people.

Bathroom accessories

Bathroom accessories made from luxury or trendy materials can completely change the overall impression of a bathroom and toilet. Some bathroom accessories can also have a decorative purpose, while others are practical and fully functional tools designed to enhance the guest experience. Design is very important, but should not be the only deciding factor in the selection process.

Quality materials, workmanship down to the smallest detail, novel and timeless design, harmonious combination of individual materials, various design solutions and a wide range of colours - all of these are the hallmarks of the bathroom fittings and accessories that you will find in our very extensive range.
